isolved vs Paycor

## Why isolved Wins

Why Customers Select Us

Third Party Integrations
Robust partner network that easily connects to a wide variety of vendors

Implementation Experience
A hands-on approach with little reliance on "How-to" PDF's and a User community.

Pricing Transparency
Upfront pricing and billing. No hidden fees for events like check copy, amended tax returns, etc.

Reporting
Strong report customization with ease of navigation.

Testimonials

Integrations
"It [isolved] connects our FBA accounts, payroll deductions and contributions, and benefits enrollment, and COBRA fairly seamlessly so that integration of that data is correct across platforms."

Pricing Issues
"Price point is one big concern for our company, followed by pain point. isolved provides access to several modules, the totality of which are more economically priced than our prior PR company."

Implementation
"Our [Paycor] implementation team was not thorough and did not finish transition tasks - wrong ytd totals were applied to the wrong employees and they still after 7 months have not resolved them."

Reporting
"I really like... the [isolved]reporting features, and the amount of customizable information and data the system is able to maintain. The reporting feature is helping to streamline a lot of our year-end and quarter-end processes."
